A search and filter section includes a Time dropdown (Past week), a Country dropdown (Czech Republic), and an Event/organiser input field (MTBO). A Sorting dropdown is set to Date. The main content area displays a table of events:

The main content area is a topographic map showing the race route with a large play button overlay.

3. Zvolit soubor

- a. GPX (nebo podobný) soubor stažený do počítače (zvolit "Upload file")
- b. Přímé přenesení z aplikace Strava (zvolit Fetch from Strava) – předem je třeba potvrdit propojení účtů Livelox a Strava

The screenshot shows the Livelox website interface. At the top, there is a navigation bar with the Livelox logo on the left and links for 'Manage', 'Subscribe', 'About', 'English', and 'Petr Jašek'. Below the navigation bar, the main heading reads 'Add route: 1. Brněnský pohár MTBO 2022 - Říčmanice'. Underneath, there is a section for 'Person: Petr Jašek' with a 'Click to change' link. The main section is titled 'Route' and contains a paragraph of instructions: 'You can upload a file from your device, link to a file on the web, or fetch a file from an external application. The GPX, TCX and FIT file formats are supported. Routes can also be drawn by hand from the replay page for a class.' Below this text are three buttons: 'Upload file' (with a file icon), 'Upload link' (with a link icon), and 'Fetch from Strava' (with a Strava icon). Each button has a brief description of its function. At the bottom right of the form, there are 'Save' and 'Cancel' buttons.

Tento document popisuje jen základní postup. Navíc lze např. zadat trasu za někoho jiného, nakreslit postupy ručně, oříznout aktivitu, pokud se neshoduje start nebo cíl activity s gpx záznamem a mnoho dalšího.
